Call at the Record office next Monday and leave us the dollar you owe us. we need it.

The irony of fate, fruit of all kinds plentiful and sugar too high to make preserves.

Cottages, flats and dwellings of moderate size are scarce and in demand in Lancaster.

Between the war news and the baseball results, the town idler is being kept very busy these days.

The recent rains added several feet of water to Lake Placid, and it is still being fed by two good sized streams.

Many of the teachers of the county are heeding the warning given by the Record, and having the drinking water used at their schools analyzed.

The rains have interfered with threshing and a good many belated crops are yet to come to market. However, all wheat is in the stack and is not injuring.

The fellow who "takes sugar in his" is likely to live on light diet in the future, with the principal ingredient scarce and sugar too scarce to be thought of.

Bro. Tinder had a nice shepherd dog killed by an automobile last Saturday, which occasioned poignant grief in the hearts of Messrs James and John William Tinder.

"Every sweet has its bitter." The rains washed considerable of the oil from the streets. We can always get oil, but rain does not come every time we whistle for it.

Between the showers recently, the farmers have commenced the breaking up of wheat ground, and the bumper crop this year will have a tendency to considerably increase the acreage sown this fall.

If you want to see a lot of happy people, look into the faces of the Garrard county farmers next Monday when they come to county court. They surely have cause to be happy with such splendid crop prospects.

Buy a penny at the big sale Monday for the chance to drive to school.

W. E. Moss.

Goods sold cheap Friday and Saturday at Moores.

Plenty of vegetables, fruit in profusion, home grown water melons, a bountiful wheat crop and the promise of good wheat crops, verily we should call ourselves blessed.

A religious revival seems to be sweeping the county. Most of the country churches have already held protracted meetings, and at least two of those in town will do so in the early autumn.

Mr. Country Merchant, come round next Monday and get our prices on some nice stationery. It is much nearer and nearly as cheap as that you have been getting in "the city", or as a prize with cheap baking powder or patent medicine. Just try us once.

Editors seldom have the price of more than one cigar, and Lewis Landrum may not be able to subscribe more than ten thousand dollars to the Danville hotel fund, but he most assuredly can tell them how to secure subscriptions. He was the main pusher in building the Kengarian.

MRS. JAS. ROBINSON ILL.

Mrs. James Robinson, wife of the well known trader and stockman, who resides at the old Burnside place on the Richmond pike near town, is seriously ill, and her friends are apprehensive over her condition.

SOME PEACHES.

We wish to thank Mrs. Henry Cox for the gift of a fine box of peaches. These are without exception the finest peaches we have ever seen, both in quality and size. The office force joins us in thanking this estimable lady for her liberal generosity.

MR. JENKINS TO REBUILD.

Mr. Parker Jenkins has commenced the erection of a new cottage on his place near the water works. The work is being done by Mr. J. Booth Sutton. Mr. Jenkins who is one of the engineers at the water works, recently lost his home, together with its entire contents by fire.

"BIG COURT" NEXT MONDAY.

The March term of the Garrard circuit court, which Judge Hardin adjourned because of the busy season at the time it should have been held, will reconvene next Monday. This will be a regular three weeks term and the same juries which were drawn for the March term will serve at this term of court.

ABLE TO REJOIN HIS COMPANY.

Mr. Ralph Taylor, the attache of the Williams Comedy Co. who sustained a broken leg while assisting in loading the show preparatory to their leaving Lancaster recently, and who has since been at the home of Mr. J. W. Pumphrey in this city, has sufficiently recovered as to be able to rejoin his troupe. Mr. Cash Pumphrey accompanied him to Brodhead, where the troupe was showing last week.

EVERYBODY GOING TO STANFORD FAIR.

Just about everybody in Lancaster and Garrard county is attending the big K. of P. fair in Stanford this week, many of them for the entire three days. This is the nearest fair held to Lancaster this year, and our people are availing themselves of the opportunity and patronizing it liberally. Everybody who has attended speaks in the highest terms of the meeting and says it is one of the best exhibitions ever seen in central Kentucky.

MEETING WITH MUCH ENCOURAGEMENT.

The people of Danville are meeting with much encouragement in their efforts to raise sufficient money to build a hotel. The banks are subscribing for the stock in blocks of \$1,000, and it looks very much as if they had at last hit upon the proper method to raise the funds desired, which is \$80,000.

When such an effort was essayed in Lancaster, the slogan was "let no one escape", and even down to the various fraternal organizations took stock in the laudable enterprise.

CHANCE TO WIN \$10,000 IN CASH

Manager Romans is running the famous films that are creating such a sensation all over the country, "The Million Dollar Mystery." In addition to two interesting films every Friday night for twenty two consecutive nights every person attending has a chance to win \$10,000 in cash offered as a prize to the person offering the best solution to the "Mystery" to be written in 100 words. As an aid to the solution it is well to keep in mind the following questions, 1st What became of the millionaire? 2nd What became of the million dollars? 3d Who does Florence marry? 4th What becomes of the Russian Countess? The last two reels of the film will be made from the accepted solution. Go and see the production it is interesting and instructive through out, and you have a chance at the money. Second installment Friday night.

GARRARD COUNTY "KENTUCKY RED BERKSHIRE" HOGS

MAKING SPLENDID SHOW AT STANFORD

Stanford is having one of the best fairs ever seen in this part of Kentucky and with ideal weather and a splendid show of stock, good crowds are attending.

All eyes were centered Wednesday on the great hog show, there being 29 pens of as fine porkers as were ever gathered together in a fair enclosure. The "Kentucky Red Berkshire" seemed to be the predominant strain, and there was 4 animals of this breed alone, the majority of them belonging to Garrard county breeders. Messrs A. K. Woods and J. Wade Walker, J. G. Burnside, Luther Gibbs and J. N. and Will Denny had exhibits and all of them succeeded in getting inside the money in one or more shows.

In the ring for the best boar under eight months there was 13 entries. A. K. Walker's "Gilt Edge" won first and Woods Walker's "Red Ranger" second. Best sow under eight months, twelve entries, Woods Walker's "Red Riding Hood", 1st, W. B. Turley of Madison, 2d.

Best sow over eight months, 7 entries, Luther Gibbs "Red Bird" 1st, Woods Walker's "Lady of the Lake" 2d.

Best boar over eight months, 7 entries, A. K. Walker's "Garrard Prince" 1st, W. G. Gooch, 2d.

Best sow, and pigs, J. G. Burnside, 1st.

Best pen consisting of boar and 4 sows, Woods Walker 1st, Turley 2d.

Best barrow, J. G. Burnside 1st, Bob Bruce 2nd.

All the winners were members of the recently organized "Kentucky Red Berkshire Society", and the amount of interest taken and enthusiasm shown over the exhibits, seems to indicate that this strain of swine is to take a prominent position with the swine breeders of the country.

The show of stock is unusually good the rings all filling fairly well and the "floral hall" is much better than is usually seen at a county fair. The K. of P. are out in force and doing everything in their power to make the event a success.

WRECK ON L & N SUNDAY DELAYS LOCAL TRAFFIC.

A costly wreck occurred at Una in Pendleton county on Sunday afternoon, and in consequence all traffic on the Kentucky division south of Cynthiana was delayed for about ten hours. The Cincinnati excursion with many Lancaster people aboard was detained out of Cincinnati over the C & O via Maysville and did not reach Lancaster until 6:30 a. m. Monday, and in consequence No. 10 the regular morning train was about five hours late.

"DEAD LETTER OFFICE" TO BE ABOLISHED BY POST- OFFICE DEPARTMENT.

The "Dead Letter Office", the haven for all undeliverable letters throughout the United States, is shortly to be abolished. By the discontinuing of this department of the postal service eighty people will lose their positions, many of whom have grown gray at the task which they now have.

This step will be taken as a matter of retrenchment, the work of the department will be assigned to fifteen of the principal postoffice throughout the country, to which all "dead letters" will be forwarded in future.

SAM RAMSEY FORMERLY LIVED IN GARRARD COUNTY.

Samuel Ramsey, Marshal of Crab Orchard, who was shot by Dud Shelton at the same time he killed Mr. J. Mort Rothwell, is well known and until recently was a resident of Garrard county. For several years he lived on the farm of the late J. A. Doty at Point Leavell, and on the morning of the day he was shot he left that place, where he had been to visit his brother-in-law, Mr. Hayden Naylor, about 8 o'clock, and had only been in Crab Orchard a few minutes when the trouble arose in which he received his injury. Mr. Ramsey has a very painful, though not necessarily dangerous wound, two bones broken in his leg, and is getting along nicely, and barring complications, should be able to be about in a few weeks.

WEST VIRGINIA MINING DIS- TRICT SCENE OF TER- RIBLE TRAGEDY.

On last Friday five bandits, who were afterward found to be Italian miners who had been discharged, and whose names were unknown, killed James Shaler, paymaster of the Glen Alum Fuel Co. and robbed him of his satchel and the company pay roll amounting to \$8000, which he was carrying to the mines to pay the miners. Pursued by a posse, the bandits fled to fastnesses of the mountains and a running fight followed until the bandits retreated to a cave. After exhausting every other effort the pursuing party began throwing dynamite sticks against the mountain side, one stick finally falling into the cave. The fire of the bandits then ceased and upon going into the cave, the terribly mutilated bodies of the men were found. The pursuing party lost six of their number during the running fight with the bandits, and three more of them were seriously wounded.

VICTOR A. LEAR LOSES SIX- TEEN HORSES AND MULES FROM MENINGITIS.

The many friends of Mr. Victor A. Lear the clever farmer and stockman, deeply sympathize him over the recent severe loss which he has sustained. Within the last week or two Mr. Lear has lost sixteen mules and broodmares, presumably from meningitis, or at least two competent veterinarians, Drs. Casey and Pontius, have so diagnosed the malady.

The disease was doubtless brought about or superinduced from something which the animals ate. They were being pastured on the farm of Mr. Clay Sutton, and in an adjoining field oats were cut with a mower and then drawn into windrows and baled; some of the windrows were subjected to a drenching rain and as a result moulded and could not be baled. After the baling process was finished the oat field was thrown open to the stock and the mules and horses were seen eating this moulded oats, and it is thought probable that this might have produced the meningitis, or whatever malady it was, which caused the death of the stock.

Mr. Lear raises a number of fine mules every year, and among the number lost were some very valuable animals, in fact they were all high priced stock, one and two year old mules, and fine brood mares, and Mr. Lear's loss will doubtless exceed \$2000. Several other animals were exposed to the infected animals and partook of the same forage, and are now sick, but Mr. Lear entertains hopes of saving them.

E. P. BROWN.

The smiling countenance of Postmaster Ephraim P. Brown new greets the patrons of the Lancaster postoffice. Formal transfer of the office was made after business hours on last Saturday night and Mr. Brown assumed charge on Sunday morning. Mrs. Clara D. Prather, who has served so long and efficiently under Mr. West will remain with Mr. Brown for some time and until he becomes conversant with his new duties. These duties will come naturally to Mr. Brown as he served for a number of years as deputy under Mr. Hamilton and is well acquainted with the general run of the business, but the changes which necessarily come with the lapse of time, will require the services of someone who is acquainted with the business as it is now conducted at least for a time.

"Eph" Brown as he is favorably known, is a familiar figure to the patrons of the Lancaster postoffice. For fourteen years he has been employed at the drug store of Mr. J. E. Stormes, and during this time has made the acquaintance of the majority of the people of the county. He is of a genial disposition, clever and accommodating, always ready to accommodate, and to know him is to like him, and he will undoubtedly make a splendid official.

The outgoing postmaster Mr. W. T. West has served the public in that capacity for the past sixteen years, and he retires with the well wishes of the patrons of the office and the community in general. Mr. West desires to express to the patrons of the office his sincere thanks for the many courtesies extended him during his tenure of office, and to bespeak the same kind treatment for his successor. Mr. West says that he is personally acquainted with the 106 first, second and third class postmasters of the state, has discussed in the meetings of the postmasters with them the conditions existing at the various offices, and from what he has learned and the expressions he has heard, he is confirmed in the belief that no office in the state has a kinder or more forbearing set of patrons than the office at Lancaster.

The postoffice will remain at the present site until the construction of the new government building is completed, as the government has a contract for the present location. The site for the new building is bought and paid for, and the appropriation has already been made for its erection, and Mr. Brown states that if it be possible for any steps to be taken to hurry along the building of the structure, he expects to lose no time in taking those steps, and that he proposes to investigate the matter without delay.

Boys Union Suits 15 cents at Moores.

Pay Your Dues.

At the last meeting of the Womens Club the vote was taken and carried to put no name upon next years club book unless the dues had been paid. The book is now ready to be printed but we will wait one more week in order that you may see Miss Tommie Francis before the book and program is closed for the year.

POPULAR LITTLE LADY UNDERGOES OPERATION.

Little Miss Lucile Ramsey was operated on last Sunday morning at the home of her grandmother Mrs. Sallie McCormack on Danville street, for adenoids. The young lady stood the operation well and has almost entirely recovered.

BEAUTIFUL SUBUR- BAN HOME.

We offer the attractive residence of R. S. Brown, and 15 acres of land, just out side the city limits, for sale at a bargain, \$1,000 less than the price heretofore. Mr. Brown has sold his stock of goods and his home is offered at \$9,000 to close out his property, as he is going to Indiana. It is within 100 yards of the concrete walks on Danville Street, yet no town tax is paid on it.

The house is large and attractive, situated on a beautiful knoll. The land produces about \$700 worth of crops, principally corn and tobacco. A number of building lots can be sold off, by the purchaser, reducing the cost of the improvements and balance of land. Let us show it to you.

PUBLIC SALE OF SEVEN Blue Grass FARMS.

NEAR SALVISA, KY., ON

Thursday, September 3rd, 1914

At 11 o'clock A. M.

I will as agent for the heirs of J. T. Royalty, deceased, sell at public auction, on the premises at his late residence 1 1/2 miles west of Salvisa, Mercer County, Ky., on the Salvisa and Kirkwood turnpike, the following tracts of land.

Tract No. 1, containing 142 acres:

and two story frame dwelling of 8 rooms and all kinds of out buildings; one new stock barn, one of the best in the county, and new 8-acre tobacco barn. The dwelling is one of the best country dwellings in the county and buildings are all in fine shape and everything in good repair. Never failing water the year around for all purposes; a No. 1 fish pond on the place, besides running water; good fencing. The dwelling sits back in an avenue, about 1/2 mile from the main pike, with a beautiful view of the pike, and the yard has lot of nice shade trees of all kinds. In other words it is a lovely country home; elevated high enough to be dry and healthy. The land is fertile and will bring anything most you will put in the ground, and is in a good state of cultivation, and ready to make you money. One good tenant house on place.

Tract No. 2, containing 119 acres:

adjoining this same farm and of the same quality of land, and the only improvements on this tract of land is a good 12-acre tobacco barn. One-half of the land will bring good tobacco. This tract lies good and is a beautiful site to build; immediately on the pike. Plenty of running water the year around, and good fencing.

Tract No. 3, containing 122 acres:

unimproved land. One-half of said tract is in Blue Grass and a little rolling; adjoins the rear end of the two first tracts, and on a splendid dirt lane; with

plenty of running water through the place and good fencing, and several nice buildings sites on this place. The land will bring anything you put on it.

Tract No 4, Containing 62 Acres

of improved land, with running water and good spring, all in grass and is strong land; will produce well and on the Bardstown dirt lane, but some good sites for building.

Tract No 5, containing 18 acres

and one story 4-room frame dwelling, with outbuildings and stock and tobacco barn combined, plenty of good water in yard. This is a good little place, and lies on the Bardstown dirt lane. Good fencing.

Tract No 6, containing 18 acres

of unimproved land and adjoins tract No 5; on the same dirt lane and is fine grass land. Good fencing and plenty of water and it lies good.

Tract No 7, containing 252 acres

and two-story 7 room dwelling with outbuilding, 3 stock and tobacco barns. All of the above buildings on this farm are in fine shape. The farm is practically all in grass, lies fine and on the Davenport pike, in 5 miles of Salvisa, Mercer County Ky., and in 1 mile of Kirkwood. This is a good farm and a money maker. One good tenant house, running water the year around; all under good fencing.

Seeding Privileges.

granted at seeding time on all the above places, and full possession will be given of all the different tracts of land on January 1st, 1915.

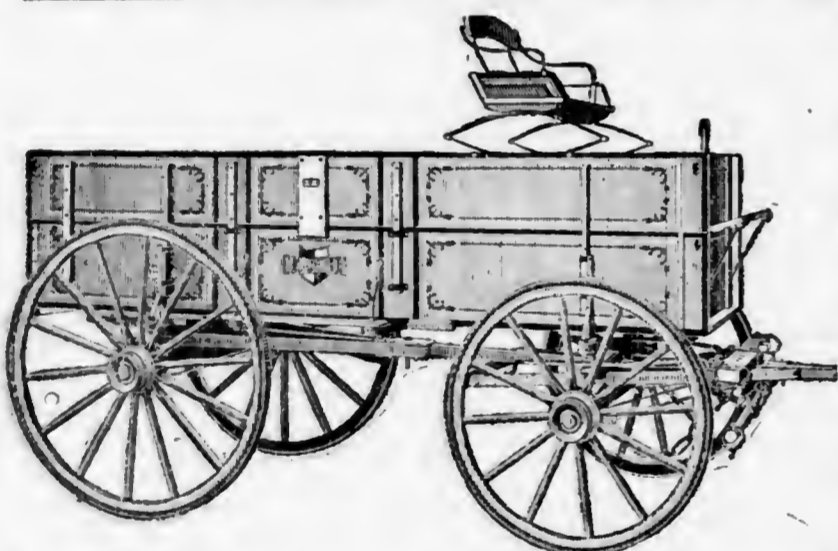

TERMS OF SALE.

All of the above tracts of land will be sold for one-third cash, the balance in 1, 2 and 3 years, with six per cent interest until paid, with the precise clause to apply to all deferred payments. Purchasers of the above tracts will be required to put up a cash payment on day of purchase for the faithful performance of their contract until deed is made, which will be on or before January 1st, 1915. Anyone who might buy one of the unimproved tracts and might want to build this fall on said land, can have possession of that part of it at once. I am anxious to close up his business and will sell every foot of these different farms, if I can get a decent bid; but I reserve the right to reject any or all bids; there will be no by-bidding. A square deal will be accorded to everyone. All land lying on rural route and in graded school district; about three-fourths mile of Southern depot at Salvisa, a town of about 500, where there is ample church, hanking and other desirable accommodations. Anyone who might want to look at the farms can write or call up 42, Salvisa Exchange, who will be glad to show them the land and give them particulars of same, or will meet you at train at Salvisa station, or write or call 281, John I. VanArsdall, Real Estate Agency, at Harrodsburg.

PRIGE ROYALTY, Agent, Salvisa, Mercer County, Kentucky.

John I. Van Arsdall, Auctioneer.

Sale will take place rain or shine.

Don't Buy a Wagon Until You Have Seen the Columbus

Before you decide on any wagon, examine the Columbus. Strongly built of the best possible material the Columbus wagon gives the most satisfactory service for the longest period of years. There is no secret in the notably long life of the Columbus wagon. It is the result of the methods employed in construction. There is no wood in this wagon which has not been air-dried under shelter from one to two years. The axles and the spokes of the wheels are hickory; the hounds, bolsters and sandboards are oak, and the bottom of the box is straight grained flawless pine. These are just a few examples of the care which is taken to make this wagon as reliable as possible. The result is that the Columbus wagon is unbeatable in reliability and endurance. Come in and examine it for yourself. We know you will be pleased.

NOT SO STRONG AFTER ALL.

You may think it strange that so many people are cured of stomach trouble by Chamberlain's Tablets. You would not, however, if you should give them a trial. They strengthen and invigorate the stomach and enable it to perform its functions naturally. Mrs. Rosie Rish, Wabash, Ind., writes, "Nothing did me the least good until I began using Chamberlain's Tablets. It is decidedly the best medicine for stomach trouble I have ever used." For Sale by all dealers.

FAMILY CARES

This Information May Be Of Value To Many A Mother In Lancaster.

When there is added to the many cares inseparable from the rearing of children that affliction of weakness of the kidneys and auxiliary organs, the mother's lot is far from a happy one. This condition has often been corrected by the use of Doan's Kidney Pills. When relief comes the mother's burden will be lighter and her home happier.

Mrs. H. G. Crutchfield, Stanford St., Lancaster Ky., says: "My boy was greatly troubled by his back and kidneys. He did not have proper control over the kidney secretions, which caused no end of annoyance. The child also looked badly and I was considerably worried about his health. I heard of Doan's Kidney Pills and began giving them to him. He is now a great deal better."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Crutchfield recommends. Foster-Milburn Co., Props., Buffalo, N. Y.

One day last week, while Miss Lucy Pettus was seated in the parlor busily engaged in reading, she received such a scare as she will not likely forget very soon. Upon raising her eyes from the printed page, she noticed something on the davenport which did not look natural to the surroundings. A large black snake lay stretched at full length, quietly taking its rest, and looked like a most unwelcome visitor. The young lady's first thought was that some very practical joker had placed an imitation serpent there to have some fun. Bending over to more closely examine the supposed imitation, she was surprised and horrified to see the reptile was alive and very much satisfied with its visit. The outcry resulting quickly drew the rest of the women folks to the scene. Discussion on the proper method of eviction failed to discover any suitable expedient. Mrs. R. G. Pettus proved herself a heroine and ended the dilemma. The plucky lady grabbed the snake and carried it outside where it was killed.

Mr. Dan Myers, Mr. Bonta, Mrs. Floy Edwards, Misses Eula Shuffit and Bessie Mustain of Horse Cave, were the guests of Mr. and Mrs. E. C. Garman and Miss Jane Garman last week.

Half Entire Population of St. Paul at Service on Go to Church Sunday

GO TO CHURCH!

In every village, hamlet, town and city in the United States the cry is heard. Many have had their GO TO CHURCH Sundays already. The reports are very encouraging. About half of St. Paul went to service on one particular Sunday. The pastors unreservedly pronounced the results BEYOND THEIR EXPECTATIONS. As one pastor described the scene at his church, every man, woman and child in his congregation seemed to have made a special effort to get to church. Other pastors told of enthusiastic responses of persons who had not attended church in years at the end of the service, declaring that "this doesn't mean only once. I'll be here next Sunday too."

WITH FEW EXCEPTIONS THE CHURCHES THROUGHOUT THE CITY WERE FILLED TO CAPACITY, AND MANY WERE OVERCROWDED. SUNDAY SCHOOL ROOMS LONG UNUSED AT SUCH A TIME WERE THROWN OPEN TO CARE FOR THE OVERFLOW IN MANY CHURCHES. THE LARGEST ATTENDANCES WERE AT THE MORNING SERVICES. AT THE KNOX PRESBYTERIAN CHURCH THREE MEMBERS OF THE CHURCH WERE UNABLE TO FIND SEATS. THEY RETIRED TO THE BASEMENT, WHERE, SEATED ON THE EDGE OF THE COAL BIN AND BOXES, THEY HEARD THE SERMON BY THE REV. B. S. BATES.

Grandma Seymour, ninety-five years old, probably was one of the oldest persons who answered the appeal. She attended the morning service at the First Baptist church. She lives at the Home of the Friendless, 469 Collins street. When the GO TO CHURCH call was first issued Mrs. Seymour grieved because she thought she could not be one of the thousands. The Quest Bible class of women of the First Baptist church Sunday school, learning her desire, sent a carriage for her. Accompanied by Mrs. Parr, eighty-four years old, she made the trip without difficulty and was happy.

KENTUCKIANS SWIFTLY RELIEVED OF STOMACH ILLS BY MAYR REMEDY

First Dose of Wonderful Treatment Shows Results After Years of Suffering.

Many Kentuckians have found swift relief from disorders of the stomach and intestinal tract by the use of Mayr's Wonderful Stomach Remedy.

The first dose gives results. It is not a long treatment.

Here are statements taken from the letters of two Kentucky people who have used the remedy:

W. H. CLARKE, Central City, Ky. — "The medicine has done my wife a world of good and she has been suffering with stomach trouble for years."

MRS. BELLE HAWKINS, Eminence, Ky. — "I have taken all of the medicine. I don't think I need any now, as I think I am well. I never felt better in my life."

From all over the country come

thousands of just such letters. This wonderful remedy shows results, safely, and with the first dose.

Mayr's Wonderful Stomach Remedy clears the digestive tract of mucoid accretions and removes poisonous matter. It brings swift relief to sufferers from ailments of the stomach, liver and bowels. Many declare it has saved them from dangerous operations and many are sure it has saved their lives.

Because of the remarkable success of this remedy there are many imitations, so be cautious. Be sure it's MAYR'S.

Go to R. E. McRoberts drug store and ask about the wonderful results it has been accomplishing—or send to Geo. H. Mayr, Mfg. Chemist, 154-156 Whiting St., Chicago, Ill., for free book on stomach ailments and many grateful letters from people who have been restored. Any druggist can tell you its wonderful effects.

FINE FARM FOR SALE

For private reasons I will have to give up farming; and will sell my home place of 230 acres. This farm is in 1-2 mile of Crab Orchard, adjoining the Fair Grounds and lands of J. W. Guest. It has a brick dwelling of six rooms, hall, porch, and cellar; a frame summer dining room and kitchen attached; a good tenant house, two stock barns, a \$1,200 tobacco barn of 8 acres capacity, and all other necessary out buildings.

This farm is in a high state of cultivation; 130 acres of river bottom land this is fine corn, meadow, or grazing land; 100 acres of up-land, adapted to blue grass, and is fine for tobacco, corn, wheat and other grain.

Dix river bounds it on the east, with two creeks running through the farm, five never-failing springs, and a splendid bored well, of pure limestone water, at the door, which gives an abundance of stock water during the driest seasons, which makes it an ideal stock farm.

This farm can be nicely divided into two farms—about 130 acres with tenant house; and 100 acres with improvements.

Will sell as a whole or in two tracts, to suit purchasers. Liberal terms will be given. Seeding privileges given, and full possession January 1st, 1915.

MR. JOHNSON PRICE'S CONDITION

The condition of Mr. Johnson Price, who is suffering with typhoid fever, we are sorry to say, shows no improvement. A trained nurse is in attendance at his bedside, and he seems to be doing as well as could be expected. However, this disease must of a necessity run its course, and it is the sincere wish of his many friends that this clever gentleman's condition may soon begin to show improvement.

SCHOOL BEGINS MONDAY AUG. 31st.

The Lancaster Graded School will open Monday August 31st, and everything indicates a prosperous year and a large attendance. The splendid corps of teachers with Prof. Caneer as Principal is not excelled by any faculty in the state, and with the handsome modern school building, gives to Lancaster and Garrard county educational facilities such as they never before enjoyed.

PROF. IRELAND GOES TO BELLEVUE KY.

Prof. W. Ireland, for many years principal of the Lancaster school, has been elected principal of the Bellevue school in the state of Kentucky. He has accepted the position and will leave for his new duties on Monday, September 1st. Prof. Ireland is a highly educated and efficient educator, and his removal to the people of Bellevue is a great gain to that community.

U. S. MONEY COUNTERFEIT IN EUROPE.

With the breaking out of the present war in Europe, hundreds of American tourists were caught within the war zone, and immediately found themselves in considerable of a predicament. They were in the peculiar attitude of having plenty of money and finding it all of a sudden to be counterfeit. With the breaking out of war and the severing of friendly relations with foreign countries, the only money that is legal tender everywhere is gold, which is the basis of circulation the world over.

Every effort possible has been made, not only by individuals, but by our government, to aid our own citizens who are in this condition, and no expense has been spared to give them relief, but this all takes time. Communication was either entirely broken off with many foreign country, even those who are not effected by the war, and it was found impossible at first to get in communications with our stranded countrymen and to get negotiable funds to them, but gradually a way has been provided and the greater number of them are already back home, on their way here, or within a friendly port awaiting the sailing of the first ship back to the dear old United States.

THE JOSEPH MERCANTILE CO

TO CONTINUE BUSINESS AT OLD STAND
Mr. Adolph Joseph Goes To Zenia Ohio.

The Joseph Mercantile Co will continue to do business at the old stand in Lancaster, and Mr. Arthur Joseph is now in the cities buying an extensive line of new goods. Mr. Adolph Joseph will leave Lancaster Sunday for Zenia O., where he will become a member of the old firm of S. Steinfels & Co., the most extensive dealers in clothing and goods furnishing goods in that thriving town of ten thousand people. Adolph will retain his interest in the local firm but will devote his entire time to his interests in Zenia. Lancaster people are very reluctant to give up Adolph as he is a Lancaster boy, born and raised here, is very popular and has developed into our most progressive business men.

GENERAL PROBE INSTITUTED TO ASCERTAIN CAUSE OF HIGH PRICES AND IF POSSIBLE APPLY SOME REMEDY.

Foodstuffs have taken a turn skyward, with the European war as the reason given for such action. Such a procedure seems incongruous in the face of the fact that European ports are closed and commerce on the high seas is at a standstill. Even the American people who are within the war zone are unable to secure passage back home, and if our people cannot get out of foreign ports, we are at a loss to understand just how our products are expected to gain entrance into those same ports. Last week hogs went up to \$10.15 on the Cincinnati market, but as quickly went back more than 50 cents per hundred. In sympathy with the big rise in the prices of hogs, pork and all kinds of packing house products advanced in sympathy, although considerably more than hogs, but those prices NEVER WENT DOWN when the reaction came. Sugar has gone from 5 to 9 cents per pound in the retail market, with good prospects of a further raise. Coffee, tea, rice, in fact almost all of the necessities are quoted at a considerable raise.

President Wilson very promptly took cognizance of the existing state of affairs, and will leave no cog of the government machine idle in an effort to ascertain the cause of the raise and if possible put a stop to the charging of inflated prices. He has ordered Attorney General McKendall to set in motion the machinery of his department throughout the country, and if conspiracy or any other illegal motive can be found for the manipulating of prices, the guilty will feel Uncle Sam's strong hand at their throats. States and municipalities are heartily cooperating with the President in his efforts, Congress is instituting a rigid probe, and the members, irrespective of their political faith, are rallying heartily to the assistance of Mr. Wilson, and if there be a possible chance, prices will soon be restored to their normal state.

CALL FOR VOLUNTEERS.

While European countries are calling for volunteers in a conflict of war, Ky. is calling for volunteers in a conflict of peace, a conflict which, if eventually and successfully waged, will insure to the people of this great Commonwealth a new era of peace, happiness and prosperity. Kentucky has one blight and that upon her record at this time, and that is the high percentage of illiteracy among her adult population. 268,084 of her men and women cannot read or write, and are thus deprived of the privileges of citizenship and prevented from enjoying the richest blessings of life. These men and women are mostly native whites. Many of them are people of superior intellect and some of them, at least, are ambitious. However much they may hunger for an education, the day school can offer them no opportunity. It must accommodate the children. The State is deprived of the service of these unfortunate men and women, and the school is deprived of their intelligent co-operation. Three weeks' instruction in moonlight schools would enable them to read and write, at least, and when given the keys to knowledge, they will proceed to unlock the treasure house for themselves.

For the sake of this great army of benighted men and women, for the sake of their children and their grandchildren, for the sake of the cause of education, for the sake of a better and more intelligent citizenship, for the sake of a more creditable record when the census of 1920 is taken, for the sake of the Commonwealth, which, when crime breaks out or epidemics prevail or dark days come, looks upon its illiteracy as the cause and laments, "My people were confounded for want of knowledge," we appeal to every public and private school teacher to enlist and start a moonlight school on the evening of September 7th, and to every citizen to seek out and instruct some one or more illiterates. "One thousand moonlight schools, fifty thousand adults enrolled, ten thousand illiterates taught" is our aim for 1914. Let all true and patriotic Kentuckians, men, women and children, rich and poor, young and old, white and colored, enlist for service in Kentucky's conflict against illiteracy.

HEAVY RAIN.

About six o'clock on last Friday afternoon a severe rainstorm visited that part of the county which lies between the two Danville pikes, and in its fury reached to the outskirts of town. It was accompanied by severe wind and considerable damage was done by the howling down of corn, washing of soil etc. The creeks in the vicinity of the downpour became raging, torrential for a short time immediately following storm.

COL. JACK CHINN TO RETIRE FROM THE TURF.

According to the daily press, Col. Jack Chinn, who is too well known in this section of the world to need an introduction at our hands, is shortly to retire from the turf. Col. Chinn's holdings, which consist almost entirely of brood mares and weanlings, will be entered in the fall sales, arrangements to that end, it is said, already having been made.

QUANTITIES OF FINE PEACHES.

Undoubtedly Garrard county's banner peach crop is being harvested this year, both in point of quality and quantity. Many wagon loads of the luscious fruit are to be seen on our streets every day, both home grown and brought in from the adjoining counties, and they may be had at prices ranging from 75 cents to \$1.50 per bushel. Many of the good friends of the Record have been remembering the office force with specimens of their raising, the latest being Mr. Henry Cox, who brought us just about as fine a basket as we ever saw.

SUCCESSFUL CANDIDATES IN RECENT PRIMARY ELECTION RECEIVED CERTIFICATES OF NOMINATION.

The State Board of Election Commissioners met at Frankfort on last Saturday and completed the task of canvassing the returns of the election held throughout the state on August 1 and awarded certificates of nomination to the various successful candidates. The vote in the race for the long term for the U. S. Senate was as follows: Beckham, 7,077; Stanley, 65,871; McCreary, 29,257; Republican, Wilson, 28,311; First 21,924; McLaughlin, 2,910; Progressive, Vance, 2,438; July 1, 1920; United States Senator, short term, Democratic, Camden, 71,857; Young, 34,302; Smith, 18,415; Republican, Bullitt, 27,818; Fitzpatrick, 10,816. The only congressional contest in the eighth district was in the Progressive party, John F. Hotzclaw of Garrard county receiving 319 votes his opponent Mr. Jesse Bell.

RURAL SCHOOL TERM OF GARRARD COUNTY TO BE SEVEN MONTHS ANOTHER FORWARD STEP IN CAUSE OF EDUCATION.

The school per capita for the current school year is \$1.50, more than it has ever been before, and in consequence the rural schools of Garrard county are to have seven months term. The schools which began on August 1st, will continue until they have taught five months and adjourn for the Christmas holidays and will resume again in April for another two months term of Spring school. This will serve the double purpose of giving the children a long holiday, breaking the long school term, and also enable such teachers as may desire to do so, to attend Normal school for one term during the winter and early spring. This course was fully decided upon at a meeting of the County School Board held in the office of Miss Higgins on last Monday. Miss Higgins summoned the entire force of teachers of the county to her office on last Saturday, and the course was fully discussed and decided upon, after which the proposition was submitted to the Board, and met with their hearty approval and ratification. We are informed that in some instances the public money will be supplemented by private subscriptions of the patrons of the schools and some of the schools will continue for a period of nine months.

At the conference with the teachers Saturday, the entire course of study for the term was fully discussed and outlined, and as the hooks have arrived the schools will continue uninterrupted from this time forward. The entire course of study arrived last week, but owing to the unprecedented demand was exhausted, and Mr. McRoberts was compelled to make another order which he hopes to have in without further delay.

RATES OF TUITION GRADED SCHOOL.

Lancaster, Ky., Aug. 17, '14. The Lancaster Graded School will open on Monday August 31, 1914 with a full corps of excellent teachers and we trust to have a larger attendance than ever.

With improved methods and fine building, well heated and well ventilated we should have more scholars and better work, although the work in the past has been excellent.

The following are terms for tuition per term of 5 months:

1st, 2nd, and 3rd Grades \$9.00
4th, 5th and 6th Grades 12.00
7th, 8th and 9th Grades 18.00
10th 11th and 12th Grades 25.00

Tuition must be paid in advance. No one will be allowed to enter the grades until the tuition for five months has been paid. All who expect to send pupils should confer with the Treasurer and pay in advance. After pupils have been graded tuition must be paid before entering upon studies.

E. W. Harris, Treasurer.

OPERATING MACHINE.

Mr. Clay Pumphrey, who for some time operated the picture machines at the Colonial and Moose theatres in this city, is here this week with the Tuberculosis Demonstrating Car, operating the motion pictures in connection therewith. Pumphrey is an expert in this business. — Danville Messenger.

CRAB ORCHARD.

This past week has been filled with bright events. The tango mask was a roaring success, with twenty couples contesting for the prize. The first was unanimously awarded to pretty Mrs. W. B. Chastine, of Lexington representing a wandering gypsy maid. The swimming pool tournament brought out a lot of long strokes and a host of witnesses. The vudeville performers with local talent from the ranks of the dining room servants would have done credit to professional shows. The auction bridge and progressive 500 found eager players and these will continue weekly throughout the season. The hotel and cottages are pretty fully but all comers find accommodations and welcome. Among those registered from Lancaster are: Messrs W. A. Wheeler, W. D. Burton, W. S. Hopper, Jno. McRoberts, D. C. Elmore, J. E. Robinson, J. S. Haselden, Sae Francis, Misses Lillian Cochran, Grace Cochran, Sue Shelby Mason.

JENNINGS.

Friends and relatives here in her old home have been notified of the death of Miss Katie Jennings, which occurred at the home of her mother, Mrs. Mary E. Jennings at Arcola Ill. on Monday August 10th, and her remains were interred on the following Wednesday August 12th in the cemetery at that place. Funeral services were held in the Christian church at Arcola, of which she was a consistent member. Miss Jennings was 31 years of age, and was a daughter of the late George and Mrs. Mary Jennings, who resided near Point Leavel in this county. She has been in feeble health for two years as the result of a fall sustained while nursing a patient in her capacity as a trained nurse. Besides her mother, Miss Jennings is survived by several grown sisters. She was a cousin of Mrs. Emma Higginsbotham and George Palmer of Lancaster, and of Mrs. Marion Johnson and Messrs Willard Robert Palmer of this county, and also of Mr. Samuel B. Jennings of Lancaster.

ARNOLD.

Mrs. Margaret Brown Arnold, wife of Mr. Harve Arnold, died in Mineral Wells Tex. at 8 o'clock on last Monday morning. Her remains were brought to her old home in Lancaster, and after funeral services at the grave on Thursday morning, conducted by Rev. J. W. Beagle, were interred in the family lot on the Lancaster cemetery.

While her friends in this county were aware of the fact that Mrs. Brown was in failing health, they were not prepared for the intelligence of her death, and the news came as a severe shock. On last Friday the news came to her daughter, Miss Edna Guiley, who has been making an extensive visit to relatives here, that her mother was seriously ill, and left on the first train for Mineral Wells, reaching there on Sunday morning. Her mother was unconscious upon her arrival, and never regained consciousness until the end came.

Mrs. Arnold was one of the brightest women ever reared in Garrard county, a daughter of the late A. B. Brown Sr. of this county, she was reared here and received her education in the schools of Lancaster, afterwards becoming one of the most successful teachers of the county. She was married to the late T. Gale Guiley, a brother of Mr. J. D. Guiley, and to this union was born two children, Stanley a son, who is now in Texas, and Miss Edna, who was but recently a cheerful visitor to her many relatives in her old home here. After Mr. Guiley's death the deceased was married to Mr. Harve Arnold, who was a native of Garrard county, but who had made his home for many years in Mineral Wells Tex. to which place they removed and made their permanent home. Besides her two children, Mrs. Arnold is survived by her husband and one brother, Mr. George F. Brown of this county and three sisters, Miss Albie B. Brown of Louisville Ky., and Mrs. Rosa Brown Bowman of Indiana and Miss Martha Ann Stephens of this county.

A host of friends who remember the deceased so well and so lovingly join in extending their sincere sympathy to the bereaved family.

Firewood Consumption in Kentucky.

There are 3,520,000 cords of wood, valued at \$7,236,000 consumed on the farms of Kentucky annually, according to a report which has just been issued by the United States Department of Agriculture. The total yearly firewood consumption in this State is 3,679,000 cords with a value of \$7,770,000. The consumption in the cities of this State is 146,000 cords and 12,500 cords are used in the mineral operation of Kentucky each year.

In Continental United States the annual consumption of firewood amounts to 85,937,000 cords, valued at \$250,000,000. Of this amount 99,961,000 cords are used on the farms, 14,222,000 cords in the cities of the nation and 1,751,000 cords are used in the mines of the United States. The average value of wood consumed in the United States is \$2.91 per cord and \$2.11 in this State. The average consumption per farm in the United States is 11 cords per annum.

Seven Farms At Auction.

On another page in this issue will be found a half page ad of seven fine farms for sale by Price Royalty, agent for the heirs of J. T. Royalty, deceased. The sale will be at public outcry on the premises near Salvisa, on Thursday, September 3rd. Nearly a thousand acres are in the seven tracts.

Many Women Farm Laborers in Kentucky.

The farm laborers of Kentucky work on an average of 9 hours and 45 minutes per day, according to a report which has just been issued by the United States Department of Agriculture. Kentucky farms employ 196,000 laborers and the average monthly compensation is \$17.39 with board and \$24.00 if the laborer boards himself. More than 19,000 of the farm laborers of this State are women.

The average wage for farm labor in Continental United States is \$13.85 per month with board and \$19.44 without board.

Kentucky Horses Decrease in Value.

The Kentucky horse has decreased \$1. in value during the past year, but the total number of horses on the farms of this State is the same as it was a year ago. The Kentucky horse is now worth \$102.00, according to valuations recently placed on him by the United States Department of Agriculture. A year ago he was worth \$104.00. On January 10, 1914 there were 433,000 horses on the farms of Kentucky and they were worth \$35,629,000. Compared with other States Kentucky ranks eighteenth both in number and value of horses, but in quality of horses she takes first place. Kentucky is famed the world over for her blooded horses.

In the entire United States there are 20,962,900 horses and they are worth \$2,291,636,000 or \$108.35 each.

EUROPEAN WAR

GOES RELENTLY ON. ARMIES EN-BRACE MILLIONS OF MEN.

The European war, the greatest in the world's history, continues steadily and almost a continuous battle is in progress. The German army consisting of almost a half million men, is stretched along the river Meuse for a distance of nearly two hundred miles, and their advance is stubbornly resisted by the allied forces, but the Germans are knocking at the doors of Brussels, and the capital of Belgium has been removed to Antwerp. England has sent the flower of her army across the English Channel, it has already landed in France and will join the allied forces.

It seems now almost inevitable that Japan will be drawn into the conflict in order to protect her ally, England, and preserve the integrity of a strip of 200 square miles of leased territory in China. Italy has her army mobilized and should the Germans succeed in attempting to invade Italian territory in her endeavor to move her troops, the latter country will also join the allied forces against the Germans.

The Pope is confident that Rome, as the result of excessive war, over the terrible war.

It is estimated that ten million Americans stranded in Europe, scattered through the war zone, and every possible effort is being made for their safe return home. Assistant Secretary of War, Henry S. Breckinridge, is in London with all the financial need possible and with several cruisers, which he will use on expeditionary trips, gathering up our stranded people and bringing them to London where they can secure safe passage home.

All war news is rigidly censored, and so strictly is this censorship maintained that the movement of the English troops was not known, not even in England, until they were actually landed on French soil. The censorship is equally as rigid throughout the war zone, and the news of a battle is usually several days reaching the outside world and even then details are unobtainable.

Both the allied forces and Germany are claiming victories, and both are fighting stubbornly for every inch of ground. Heavy battles are known to have taken place along the Meuse, at Liege, and before Brussels, and engagements are said to have been fought along the Russian frontier where the Russians are seeking to invade Austria, and they too are meeting with stubborn and determined resistance.

Japan has issued an ultimatum to Germany and given her until Sunday to answer, and in the event of it not being favorable, Japan will assume a hostile attitude in conjunction with the allied forces. However, Japan, if she does join in the conflict, will endeavor to confine her operations to the far east.

HAIR MADE BEAUTIFUL.

Beautiful hair, thick, fluffy, lustrous and absolutely free from dandruff is not an easy gift of nature as a matter of care and proper nourishment. Hair is like a plant—it will not grow healthy and beautiful unless it has attention and proper nutrition.

Parisian Sage, dainty perfumed and easily applied, tones up and invigorates the roots of the hair, and furnishes the necessary nourishment to not only save and beautify the hair, but also stimulate it to grow long, heavy, soft, fluffy and radiant with life.

When used frequently and rubbed into the scalp, it will simply work wonders. Just one application stops itching head, removes dandruff and cleanses the hair of all dust and excessive oil.

Since Parisian Sage, which can be obtained from R. E. McRoberts or at any drug store, never disappoints, it is no longer necessary for any woman to be dissatisfied because of thin, streaky, faded, lifeless or unattractive hair.

Toistoy's Handwriting.

In the Revue de Paris Count Elie Tolstoy describes his mother's experiences as his father's amanuensis: "Being very shortsighted, my mother had to bring her eyes close to the paper to decipher my father's frightful scrawl. The work often took her the whole evening and kept her busy until long after the rest of the household had gone to bed. When she found a passage which was quite illegible she used to go to papa and ask him to explain it. But that seldom happened, for she was very reluctant to disturb him. When she did so he took the manuscript from her and asked, with evident irritation: 'Well, what is it you can't understand?' Then he began to read it himself, but when he arrived at the puzzling passage he was invariably pulled up and had the greatest difficulty in even guessing what he had written."

Count Elie Tolstoy adds that while the spelling was often very bad, the contents never failed to put it right.

Elephant Skin.

Elephant skin is very beautiful. Moreover it is durable. But it is hard to get.

The price of a live elephant is not small, and, besides that, elephants do not grow within a stone's throw of our front doors. So the leather manufacturer that contracted to furnish many elephant skin bags at a given time would probably find himself under a big burden. He must wait until some tame, pet elephant, so to speak, dies.

Elephants are unusual enough, so that many of them, after they die, are stuffed and put in museums. Hence a named elephant, one that has been popular during life, will seldom fall into the hands of leather dealers. It is for the poor and wandering denizens of the circus and traveling animal shows to end up on the counters of the fashionable leather goods shops.—Washington Star.

Reading For Boys.

Our young barbarians are primitive beings. Life is to them a picture theater of physical activities. Action is all. They would rather sail a boat or kick a ball than read a book, and when they are cajoled into reading by a flaming wrapper or a color plate it is not for ideas or aesthetic impressions. As Stevenson said long ago, "Eloquence and thought, character and conversation were but obstacles to brush aside as we dug blithely after a certain sort of incident, like a pig for truffles." Not for potatoes or other homey food; to the boy the merely real spells delight: "A day of my life at school" is simply boring. The healthy boy hungers and thirsts for incidents and situations outside his experience, so ardently indeed that he will weave into the sad texture of ordinary things the bright hues of threads of romance.—Herbert Strang in T. P.'s Weekly, London.

Coining a Word.

Nothing could be more fallacious than the common notion that whatever the dictionary says is right. Every one of them contains much that is not right. Worcester, for instance, had a word, "phantomation," defined as meaning "illusion," which was copied from the cranky work of a man named Jodrell, who presented as one word every two word phrase not, according to his idea, in regular grammatical construction. He had made the word from Pope's line "The phantom nations of the dead" and credited it to Pope. His obsession led to many other ridiculous perversions of language. The one mentioned was repeated in each work printed before 1890, when it was dropped.—Chicago Record-Herald.

Not Inoculated.

During a session of the supreme court of Maine a tedious and complicated suit had well nigh exhausted the patience of counsel on both sides. One of the lawyers engaged was a certain Appleton, said to be the wisest lawyer in all New England.

Opposing him was a lawyer of pompous mien and much avoiddups, who committed blunder after blunder, until even the judge became irritated. After the commission of a particularly aggravating error this lawyer said: "I beg your honor's pardon, but that was another mistake. I seem to be inoculated with dullness today."

"Inoculated, brother?" asked Appleton. "Why, I thought you had it in the natural way."—Lippincott's.

THE COUNTY AGENT.

The county agent may be termed the great equalizer. He not only is a purveyor of native and acquired information, but he is a gatherer of ideas. Passing about the county he is observing everything that is going on. Seeing in one end of his territory an innovation which is serving a good purpose, it will not be but a short time before the same methods may be found to exist at the other end of the county. The man who neglects to take advantage of the advice and help of the county advisor or agent is refusing to take advantage of an aid he is helping to pay for.

Obvious.

The dear girls were talking. "Do you really think Jack handsome?" asked the unattached of the engaged girl.

"I like his face better than anybody's next to one."

"Whose?"

"Mine."—Indianapolis News.

Egotism.

"Pa, what's an egotist?"

"A man who makes a crooked mark when he signs his name and thinks everybody will know what it means."—Chicago Record-Herald.

Said tracts of land lie together, adjoining and used as one large farm, containing 530 acres of land, more or less.

The purpose of the sale of the personal property is to liquidate the debt of J. H. Baughman to the extent that the proceeds may do. The purpose of the sale of the real property is to satisfy the residue of the debt of J. H. Baughman, which amounts to, including interest, up to date of sale \$15,991.00 and the debt of the Farmers' National Bank, of Danville, Ky., amounting to including interest \$2,050.00 to date of sale, the debt of the Nicholasville Lumber Company, amounting to \$327.77 to date of sale, S. Evans & Company's debt amounting to \$303.52 to date of sale, debt of Charles Dietrich amounting to \$394.35 to date of sale, J. F. Cook & Company's debt, amounting to \$590.80 to date of sale, debt of Joseph C. VanMeter amounting to \$143.10 to date of sale, W. B. Hatcher's debt amounting to \$464.85 to date of sale, and the probable cost of this action amounting to \$200.00.

TERMS

Said personal property will be sold on a credit of three months, and the purchaser or purchasers will be required to execute bond with approved security said bonds due in three months payable to W. H. Brown, Master Commissioner of the Garrard Circuit Court and to bear interest at six per cent from date of sale until paid, and to have the force and effect of a judgment upon which execution may issue.

Said real estate will be offered in separate parcels and then as a whole and the bid or bids realizing the largest sum will be accepted. The sale will be made on a credit of six and twelve months and the purchaser or purchasers will be required to execute bonds with approved security for the purchase price due in six and twelve months after date, bearing interest at six per cent per annum from date until paid, said bonds having the force and effect of a judgment upon which execution may issue, payable to W. H. Brown, Master Commissioner of the Garrard Circuit Court, and a lien will be reserved upon the property sold until all the purchase money is paid.

W. H. BROWN, M. C. G. C. C. Capt. Am Bourne, Auct.

Who Was Daffydowndilly?

Mother Goose, like all world poets, never told half she knew. Poetess laureate of the English speaking nursery, her most comest achievements in rhyme are yet of an incompleteness that insure us against satiety. In those shreds and patches of verse, those isolated couplets and quatrains suggesting so much and saying so little, we perceive the promise of that perfected art foreshadowed in the unfinished tales of a Dickens and a Stevenson. Rudyard Kipling, deliberately fashioning medieval fragments for preludes to his Indian tales, struck a note seldom sustained in his completed compositions.

Who was Daffydowndilly, and what did she do when she came to town? Was Jumping Joan flesh, fairy or symbol? Would we laugh or cry did we understand the fantastic apparition of Baulbury Cross? Why did Margery Daw sell her bed to the upon straw, was there not something behind the appearance of her purely eccentric depravity?—W. T. Farned in Century.

Sign of Poverty.

It rained Saturday. And on the morning of Saturday—not so very early in the morning, but well before the ordinary man's luncheon hour—a friend of ours met an acquaintance strolling along. Do you remember the fellow who would not carry a latchkey because it spoiled the set of his clothes? Well, it was that fellow.

"Gee whizz, fellow!" said our friend. "You are wandering along here in the rain just as if it was fine weather. You will catch your death of cold. Why don't you carry an umbrella?"

"Oh, I don't like to carry an umbrella," answered the other.

"Afraid you'll lose it?"

"Oh, no; it isn't that. But it seems so vulgar to carry an umbrella—looks as though a fellow didn't have another suit of clothes, don't you know?"—Boston Advertiser.

Japanese Goldfish.

There is a great variety of Japanese goldfish. The more common "fantails," "fringe tails" and "comets" cost from 25 cents to \$2 apiece, and those bulging eyed aristocrats of the fling world, the telescope fish, will cost from \$5 apiece up, according to shape, color, size, eyes, etc.

Fish are subject to a few diseases, but for the amateur the principal thing to remember is that salt water is the universal remedy. If a fish is not in usual health and the trouble is neither due to overcrowding or overfeeding a five minute bath in salt water every day for a week will bring him back to health.

Goldfish often live to a great age. Some goldfish in a Washington aquarium are known to be fifty years old, and, by careful measurement, have not grown in over thirty years.—Farm and Fireside.

Our Japanese Sisters.

All girls in Japan are taught ethics. They are told to be filial to their parents, true to their friends, kind to brothers and sisters and to live peacefully with their husbands. These principles are taught to boys and girls alike since 1890, when the emperor commanded it. Before that girls were taught according to the laws of the Japanese sage, Konfucius, that their great duty in life was obedience, first to their parents and then to their husbands. They were especially instructed that they must regard their husbands as gods. It is pretty hard to make a twentieth century woman submit to that doctrine even in Japan. It is lucky that it has been dropped there, though it is still in full force in India, Persia and in most of Turkey and China.—Kate Upson Clark in Leslie's.

Plants Grow on Telegraph Wires.

In Porto Rico, where the air is moist and balmy, air plants find lodgment in odd places, none of which attract so much attention from the casual visitor as when they grow on the telephone and telegraph wires. The insulation rots in places, and the plants take root, grow and thrive. In places especially considerable trouble is caused, and new wires are put up in place of old ones, as they are hard to keep clean. Air plants are referred to as "current bushes" or "electric light plants," but are really a variety of Epiphytes, a class of plant life to which the orchids belong.—Popular Mechanics.
